Mayor

ERNIE B. McNEELY
Borough Manager

March 5, 2007

Dear Friends,

We write to you today as members of West Chester Borough Council's newly created BLUER Committee (Borough Leaders United for Emissions Reduction).

Our committee's job is to come up with ways the West Chester community can keep its air clean, and, at the same time, join the fight against global warming.

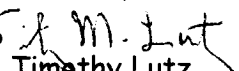

We know that we will only succeed with the West Chester community's involvement. That's why we are writing this letter and introducing ourselves to all segments of the community - from businesses to area churches, social organizations to nonprofit groups, long-time residents to students.

Over the coming months (the times of our meetings are posted on <http://www.west-chester.com>), we will come up with ways to make West Chester a "BLUER" borough and then introduce our ideas. Our hope is that together, we can make West Chester a leader among municipalities working to improve our environment.

Sincerely,

Dianne Herrin, chairperson

David Ward, vice chairman

Dr. Timothy Lutz

Courtney Marm

Martin Indars
